WASHINGTON, April 27,-It has been felt proper to admonish Admiral Kautz to be more careful either in writing such letters as that published yesterday from Cincinnati, or in guarding his letters from publicity, and a letter of that character was addressed to him yesterday. Theoretically a letter addressed under the circumstances attending the Kautz letter may be regarded as strictly private, yet practically the writer must accept the consequences that would follow the publica-

In the case of Chief Justice Chambers whose brother made public a letter criticising the Germans in Samoa the effect will certainly be injurious to the chief justice. Though the letter undoubtedly was a private communication, yet the state department was bound to take notice of the fact that this publication had done much to injure the usefulness of the chief justice. and to render his retention in the office after the reconstruction of the island's government, Improbable.

Lautheran Synod.

Lutheran Synod.

ST. LOUIS, Mo., April 27.—The Na-tional triennial convention of the German Evangelical Lutheran synod is in session here with 600 ministers and college presidents in attendance. Rev. II. Schwan, of Cleveland, O., is acting as president of the convention. In his opening address President Schwan reviewed the work of the church during the past three years and gave his views on some changes he wished brought the past three years and gave his views on some changes he wished brought about. One of the particular joints he made was that the tendency towards spending so much money on fine church buildings and the consequent drain to keep up the running expenses, was ill advised, and in the end would not accomplish the good that a smaller and wiser expenditure of money in other directions would give. He deprecated the large gifts for charity, and recommended that the churches divert the major portion of their gifts to the educational needs of the church work as he thought a sure preventive of poverty and indolence was thorough education along Christian lines.

GALENA'S TRIBUTE

To the Memory of General Grant-Postmaster General's Remarks.

GALENA, Ill., April 27.-For the seventh time in as many years citizens of Galena to-day paid tribute to the memory of General U.S. Grant with exercises in commemoration of the ancaercises in commemoration of the anniversary of his birthday. The celebration was upon a scale which surpassed any similar event under the auspices of the Grant Day Association. All the railroads entering the city had made special provisions and rates for the occasion, and thousands of out-of-town visitors witnessed the exercises in honor of the soldier-president. The orator of the day was Postmaster General Charles Emory Smith, who arrived from Chicago, accompanied by a large delegation of its citizens.

Mr. Smith said in conclusion: "Looking down the vista of time from the serene elevation of his conscious place on the border line of earth and eternity, lifted above all the passions of the shour, with his work done and his fame secure, General Grant saw and said that our country was entering on a new era. Yes, on a new era of unity and progress and power. For, under the impulse and influence of the national uprising and patriotic re-awakening of the past year, we witniversary of his birthday. And with this upiliting of the national sentiment at home we see on the broader field what his tranquil view pre-figured in the advance of the English speaking race and of our own portion of it to a larger part in the commerce and civilization of the world."

Another Georgia "Execution."

LEESBURG, Ga., April 27,-The body of Mitchell Daniel, a negro, was found in the road near here to-day, riddled with bullets. The man who came in to notify the coroner says he does not know who killed Daniel, but he heard the shooting at 3 o'clock this morning. Daniel and other negroes have recently made inflammatory talks against a family named Laramer and others, charging them with complicity in a lynching near here some time ago.

Three negroes about a week ago tried to force an entrance into the room occupled by Mrs. William Laramer. Her screams brought belp and the parties ran, but dogs trailed them home. Daniel was supposed to be implicated in this affair. Following this outrage the Laramer house was fired into a few days ago.

"Respecting Captain Coghian, no correspondence has been exchanged between the United States embassy and the German government, and the incident is considered closed so far as Germany is concerned.

one hundred survivors of the Sultana disaster gathered here in annual convention to-day, the occasion being the thirty-fifth anniversary of the event. The session to-day was largely devoted to addresses and reports of officers. Each year shows a marked decrease in the membership from death and the past year has been no exception in this respect. The Sultana was a Mississippi river boat. On April 27, 1864, she was working her way up the river when a terrible explosion occurred. In the ensuing half hour hundreds of lives were lost. Senator N. B. Scott was in the city yesterday, looking after some property interests he has in this city, and incidentally calling upon some of his warm personal friends. He was cordially greeted by all who met him, as the senator's geniality has made many close friends, and there are Bellaire folks whom he knew when a boy. His elevation to the United States senate has not changed him. He is still glad to meet his old friends.

"Cancer is hereditary in our family, my father, a sister and an aunt having died from this dreadful disease. My feelings may be imagined when the horrible disease made its appearance on my side. It was a malignant Cancer, eating inwardly in such a way as to cause great alarm. The disease seemed be and the skill of the doctors, for their treatment did ao good whatever, the Cancer growing worse all the while. Numerous remedies were used for it, but the Cancer grew steadily worse, until it seemed that I was doomed to follow the others of the family, for I know how deadly Cancer is, especially when inherited. I was advised to try Swift's Specific (S. S. S.), which, from the first day, forced out the poison.
